Subject: Important Update Regarding Book Orders and Start of the Academic Year

Dear Parents and Guardians,

As we are welcoming our pupils back for the new academic year, we would like to provide you with an update regarding orders placed through our new Online Book Ordering Platform.

Firstly, we would like to sincerely thank all parents and guardians who have already placed their orders and embraced this new service. The response to the platform has exceeded our expectations and demonstrates the strong support of our school community. To date, more than 3,500 orders have already been placed through the Online Book Ordering Platform, and we expect to receive a further 2,000+ orders over the coming days. The exceptionally high volume of orders has been very encouraging and confirms the strong uptake of this new service by our families.

Due to the exceptionally high volume of orders received during the initial launch period, our warehouse and fulfilment partner is currently experiencing delays in processing and preparing some orders. As a result, some families will receive their books later than originally anticipated. While the School and its partners have made extensive preparations for the launch of the platform, the demand experienced during the first operational period has been significantly higher than forecast. We are working closely with our fulfilment partner to increase processing capacity and minimise any further delays.

We fully understand the inconvenience this may cause and would like to offer our sincere apologies. Please be assured that all orders are being processed and will be fulfilled. Every effort is being made to dispatch them as quickly as possible.

Most importantly, we would like to reassure parents that teaching and learning will commence as planned from the first day of school. Our teachers have been informed of the situation and appropriate arrangements are in place to ensure that pupils whose books have not yet arrived are not disadvantaged during the first days of the academic year. The delayed delivery of books will therefore not affect pupils' participation in lessons.

We would also like to reassure parents regarding our Returns Policy. In the event that a book arrives damaged, a book that was ordered has not been delivered, or any other fulfilment error occurs that is attributable to the platform, the School, or its fulfilment partners, replacement items will be supplied without additional cost to parents. Furthermore, where an additional delivery charge is incurred as a direct result of such an error, the corresponding delivery cost will be refunded by crediting the relevant

amount to the pupil's fees card account (upon submitting the relevant supporting documents). This arrangement does not apply to back-ordered items, which will continue to be delivered separately at no additional delivery charge, nor to additional orders placed by parents due to changes in selection after the original order has been submitted.

For those parents who have not yet placed their orders, we kindly encourage you to do so as soon as possible through the [Online Book Ordering Platform](https://books.globeducate.ac.cy) (<https://books.globeducate.ac.cy>). Placing orders promptly will help us minimise further delays and ensure that all required educational materials are delivered at the earliest opportunity.

While we regret the challenges associated with the launch of the new platform, we remain confident that it will ultimately provide a more efficient, convenient, and streamlined experience for families. This initiative forms part of our broader commitment to enhancing services for parents through the introduction of modern digital solutions.

In the coming months, we will continue to monitor the performance of the Online Book Ordering Platform closely and work with our partners to further improve the overall experience for families. As part of this process, we plan to conduct a parent survey before the winter break to better understand the challenges, suggestions, and feedback arising from the platform's first operational period. Your feedback will be invaluable in helping us identify areas for improvement, prioritise future enhancements, and further develop the platform to better serve the needs of our school community.

For any enquiries, including matters relating to book selections, year groups, elective subjects, Greek as a Foreign Language levels, or general school-related questions, please contact the School Secretaries, who will be happy to assist you.

We greatly appreciate your patience, understanding, and continued support as we work through these initial implementation challenges. The partnership between the School and our families remains one of our greatest strengths.

Thank you once again for your cooperation, trust, and understanding. We look forward to a successful and exciting academic year ahead.

Kind regards,

The School Administration
