

Dear Parents / Guardians,

Thank you for registering your child/ren for our school's Summer School 2026!

The programme will run for 6 weeks, from Monday, 22nd June to Friday, 31st July 2026, and is packed with exciting activities, themed learning, and weekly excursions. Each week will follow a specific theme that blends fun and education.

WEEKLY THEMES & EXCURSIONS

Week 1: Exploring Nature – 25/06 Pafos Zoo (excursion)

Week 2: The Sea World – 03/07 Donkey Farm (excursion)

Week 3: Our Planet and Outer Space – 09/07 Planetarium (excursion)

Week 4: Wellness & Wellbeing – 14/07 PASCAL Lefkosia (excursion)

Week 5: Little Scientists – 23/07 Ecophys Bee & Nature Centre (excursion)

Week 6: Cultures, Countries and Languages – 31/07 Pafos Limanaki (excursion)

In addition to excursions, children will enjoy a wide variety of activities such as:

- ✓ Swimming
- ✓ Gymnastics
- ✓ Brain games
- ✓ Cooking
- ✓ Reading
- ✓ Arts & Crafts
- ✓ Crossword puzzles
- ✓ Music & Dance
- ✓ Themed science experiments

WHAT TO BRING DAILY

Children should come dressed in comfortable clothes and trainers, and bring the following items each day:

- Pencil case
- Folder
- Swimsuit *
- Swimming goggles and cap *
- Floaties *
- Towel *
- Non-slip flip flops *
- Sunscreen lotion
- PE bag
- Hat and an extra set of clothes
- Apron for Art
- Refillable water bottle

****Only on Wednesdays for children whose parents have provided consent for them to participate in swimming lessons.***

Please note:

- Breakfast, a morning snack, and lunch are included in the programme fee. The menu is attached for your information.
- The canteen will be open for children who wish to purchase additional snacks and drinks. Children may bring a small amount of money for this purpose.
- On excursion days, lunch will be provided as part of the trip. Parents will be informed in advance of the available lunch options.

WEEKLY OVERVIEW

1. EXPLORING NATURE & SUMMER SCHOOL FUN

This summer school is all about discovery, adventure, and learning through fun! We'll begin by exploring the wonders of nature—searching for bugs, identifying plants, going on nature walks, and learning how ecosystems work. Children will get to build bug hotels, make leaf rubbings, and grow their own little plants. Through these activities, they'll develop a deeper respect for the world around them while enjoying the sunshine, teamwork, and outdoor play that makes summer school such a joy!

2. DIVE INTO THE SEA WORLD

Grab your goggles, it's time to dive under the sea! In our sea world week, we'll explore oceans and the fascinating creatures that live there, like dolphins, sharks, jellyfish, and sea turtles. Children will make their own ocean crafts, such as paper space aquariums, jellyfish in a bottle, and salt dough starfish. We'll read stories about underwater adventures, create a giant classroom coral reef, and even "dive" into a submarine role-play area. It's the perfect way to learn about marine life and the importance of keeping our oceans clean.

3. OUR PLANET AND OUTER SPACE ADVENTURES

Blast off into outer space! We'll be learning about the planets, stars, moons, and even the International Space Station. Kids will become little astronauts, exploring the solar system with space-themed games, galaxy art, and planet songs. We'll also talk about how to take care of our own planet Earth, learning about recycling, climate, and why the Earth is so special. Expect fun like making model rockets, moon craters with flour and marbles, and glowing constellation jars!

4. WELLNESS, WELL-BEING, AND THE HUMAN BODY

This week is all about taking care of ourselves, inside and out. Children will learn about the human body, healthy foods, and the importance of movement and rest. We'll play team sports and yoga games, make fruit smoothies, learn calming breathing exercises, and discover how our hearts, muscles, and bones work. Fun activities like building a life-size body puzzle or designing a healthy lunchbox will help children understand how to stay strong, happy, and healthy.

5. LITTLE SCIENTISTS IN ACTION

Get ready for bubbling potions and mini explosions—during this week, we will become little scientists! Children will take part in safe, hands-on experiments like making slime, erupting volcanoes, rainbow walking water, and invisible ink. We'll ask big questions like "What happens if...?" and encourage curiosity, prediction, and observation. It's all about discovery and fun, while introducing the basics of science in a way that sparks imagination and excitement.

6. CULTURES, COUNTRIES, AND LANGUAGES

Our final week will be a celebration of the world and all the amazing people in it! We'll "travel" to different countries each day—trying foods, learning songs, practicing simple greetings in other languages, and creating crafts like African masks, Japanese fans, or Brazilian carnival masks.

Children will learn how different cultures live, play, and celebrate. A "World Culture Day" party at the end can showcase costumes, music, and food from around the globe!

WEEKLY TIMETABLE

Time	Monday	Tuesday	Wednesday	Thursday	Friday
07:30 – 08:00	Soft Drop-Off	Soft Drop-Off	Soft Drop-Off	Soft Drop-Off	Soft Drop-Off

- *Every Wednesday is dedicated to swimming activities at the Main Campus swimming pool. All children will be transported to and from the Main Campus by school bus and will be accompanied by members of the teaching staff throughout the journey. Children whose parents have not provided consent for participation in swimming lessons will remain under the supervision of their teachers and will take part in alternative activities at the school.
- All swimming sessions and water-based activities are supervised by qualified lifeguards, PE teachers, and members of our teaching staff to ensure the safety and well-being of all children.
- One day per week is dedicated to an educational excursion, as outlined in the "Weekly Themes & Excursions" section above. Excursions are designed to complement the weekly theme and provide children with enriching, hands-on learning experiences. Parents will be informed in advance of the excursion details and available lunch options.
